

NetX Information Systems, Inc. • Symantec Expert Accredited Partner

Reduce the time and cost of deploying and managing IT devices.

Symantec Deployment Solution (DS) powered by Altiris technology helps reduce the cost of deploying and managing servers, desktops, and notebooks from a centralized location in your environment. Symantec DS offers OS deployment, configuration, PC "personality" migration, and software deployment across hardware platforms and OS types. Reduce end-user downtime and increase IT efficiency through automated, repeatable deployment processes.
