

Veritas NetBackup & NetBackup Appliance

Product Sales, Professional Services & Authorized Training

NetX Information Systems, Inc. • Veritas Expert Accredited Partner

VERITAS™

The future of enterprise-class data protection is here!

Veritas NetBackup reduces the staggering complexity of enterprise data protection through comprehensive integration, a converged platform to trivialize infrastructure management, and efficiencies through automation and self-service operation. NetBackup outpaces the relentless growth of the data center with innovative performance technologies, efficient storage techniques, and by providing fast, easy recovery for any data you need. As IT transforms from cost center to business enabler, NetBackup is engineered to solve the diverse challenges of today and tomorrow and ultimately give organizations the confidence to move faster and take bigger risks trusting that their information will be safe.

Top reasons to upgrade to Veritas NetBackup:

1. More cloud storage choices.
2. Move more data to and from the cloud faster.
3. Backup and recover VMware vSphere Virtual Volumes (VVOLs).
4. Deliver self-service for Microsoft Hyper-V and vSphere administrators.
5. Simplify and automate Hyper-V and Microsoft SQL Server protection.
6. Protect NetApp cDOT environments.
7. Keep up with the latest platforms and workloads.
