

NetX Training Courses Datasheet

Delivered by Master Accredited Engineers

NetX delivers both online and onsite instructor-led Symantec and Veritas training courses. Our **high-quality** information security and information management training courses are designed for system administrators, managers, operators, developers, and end users who need to get the job done. Our training classes consist of in-depth presentation and hands-on experience followed by lab access and direct assistance from our **Master Accredited Engineers**.

Attend from your home, office or one of our convenient locations.

Our training classes are **Guaranteed to Run, Symantec classes only!**

NetX training classes are broadcast remotely, allowing our students to attend from any location. *To ensure a positive experience we only allow students to attend remotely and do not mix on-site with remote presentation.*

Smaller classes and 24/5 access are more effective: Each training class has a maximum size of 10 students, ensuring that every participant gets the most out of the presentation and can interface more comfortably with our engineer. 24/5 access to your dedicated training environment allows each student to practice labs as their schedule permits.

Advantages of Training Courses provided by NetX

-  Courses are guaranteed to run because NetX never cancels.
-  Instructors strive to make NetX #1 in customer satisfaction.
-  Instructors are experts with deep, real-world product knowledge.
-  Courses are broadcast online, so you can attend from any location.
-  Virtual training courses conveniently saves time and travel costs.
-  Instructors keep your IT team current and confident.
-  Students gain real-world skills and experience in a hands-on setting.
-  Dedicated labs are available 24 hours a day, 5 days a week.
-  Training Courses have a maximum size of 10 students.
-  Live, instructor-led courses can be held onsite at your location.
