

Backup Exec

A fast, cost-effective, unified backup and recovery solution for cloud-ready organizations.

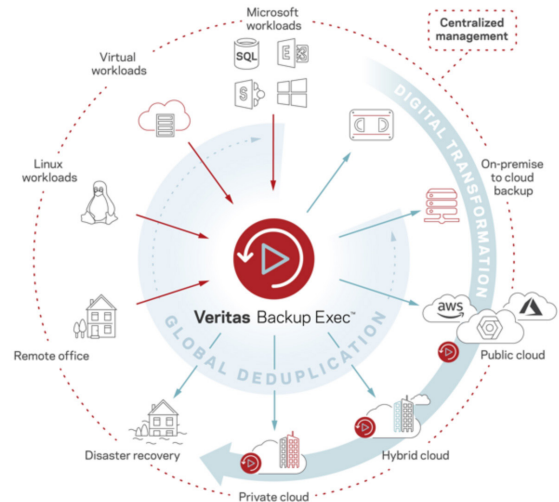

One backup, for all your data.

Virtual, physical and multi-cloud environments.

Backup Exec gives you simple, complete backup and recovery protection for your business—to cover all data wherever it resides.

With the choice of up-front perpetual or subscription licensing, Backup Exec is available in three editions to best fit your needs. Bronze provides the most economic option. Silver offers the most-used features. Gold includes all the features and functionality available in Backup Exec.

- Enhance your DR strategy with full integration with Azure Site Recovery to ensure data and application availability with minimal RTO and RPO
- Benefit from advanced integration with some of the latest third-party software releases, including Microsoft® Server, Microsoft® Hyper-V and VMware® vSphere®
- Seamlessly scale Backup Exec to the cloud and choose from a range of fully tested and certified integrated cloud connectors for various cloud environments, including AWS S3, Microsoft® Azure, Google Cloud Platform Storage
- Locate and visualize your entire data estate to support General Data Protection Regulation (GDPR) and other privacy regulations, using Veritas Information Map™
- Fast end-to-end deduplication performance to on-premise storage, as well as to public and hybrid cloud to reduce time, cost and network bandwidth
