# **Symantec Server Management Suite**

Product Sales, Professional Services & Authorized Training

NetX Information Systems, Inc. • Symantec Expert Accredited Partner

## Manage change with confidence. Make smarter, faster decisions.

Symantec Server Management Suite (SMS) powered by Altiris technology provides you with a comprehensive solution for managing physical and virtual servers across a broad array of platforms. Symantec SMS provides solutions to provision, control, automate, and monitor servers from a central console. With these server management tools, organizations gain and maintain control of their servers, reduce service interruptions, and increase uptime.
