

Backup Exec

A fast, cost-effective, unified backup and recovery solution for cloud-ready organizations.

Powerful, flexible, and easy-to-use backup and recovery

Backup Exec delivers powerful, flexible, and easy-to-use backup and recovery that is designed for your entire infrastructure regardless of platform: virtual, physical or multi-cloud environments. Advanced integration with the most recent releases of Microsoft[®] Server, VMware[®] vSphere[®] and Hyper-V ensures recovery is fast and efficient. In a matter of minutes, you can recover anything including VMs, applications, databases, files, folders and granular application objects. Backup Exec helps save time and money and ensure your critical information is protected and recoverable in the event of a disaster or data loss. It's time to upgrade your backup solution.

Top reasons to upgrade to Veritas Backup Exec:

1. Incredibly fast and easy to use.
2. Store less with efficient deduplication.
3. Designed for optimal virtual machine protection.
4. A single product for both virtual and physical environments.
5. Backup to virtually any storage device.
6. Fast, efficient, and versatile recovery.
7. Centralized management.
8. Simple to acquire and deploy.
9. Supports the latest platforms and operating systems.
