NetX Training Courses Datasheet

Delivered by Master Accredited Engineers

Advantages of Training Courses provided by NetX

Courses are guaranteed to run because NetX never cancels.

Instructors strive to make NetX #1 in customer satisfaction.

Instructors are experts with deep, real-world product knowledge.

Courses are broadcast online, so you can attend from any location.

Virtual training courses conveniently saves time and travel costs.

Instructors keep your IT team current and confident.

Students gain real-world skills and experience in a hands-on setting.

Dedicated labs are available 24 hours a day, 5 days a week.

Training Courses have a maximum size of 10 students.

Live, instructor-led courses can be held onsite at your location.

NetX delivers both online and onsite instructor-led Symantec and Veritas training courses. Our **high-quality** information security and information management training courses are designed for system administrators, managers, operators, developers, and end users who need to get the job done. Our training classes consist of in-depth presentation and hands-on experience followed by lab access and direct assistance from our **Master Accredited Engineers**.

Attend from your home, office or one of our convenient locations.
Our training classes are **Guaranteed to Run, Symantec classes only**!

NetX training classes are broadcast remotely, allowing our students to attend from any location. *To ensure a positive experience we only allow students to attend remotely and do not mix on-site with remote presentation.*

Smaller classes and 24/5 access are more effective: Each training class has a maximum size of 10 students, ensuring that every participant gets the most out of the presentation and can interface more comfortably with our engineer. 24/5 access to your dedicated training environment allows each student to practice labs as their schedule permits.

Learn the underlying components and concepts of the Symantec Management Platform along with the Symantec Management Console that is used by CMS to perform its management functions. SKU: AT2994

Symantec/Altiris Client Management Suite 7.6 Implementation course is designed for professionals tasked with implementing Symantec Client Management Suite (CMS) in their organizations. SKU: AT2993

Symantec/Altiris Deployment Solution 7.5 Administration course is designed for the professional tasked with installing, configuring, and managing a Deployment Solution system. Learn how to simplify the routine tasks of setting up new computers, migrating computers to a new operating system, and moving users to new operating systems or hardware. SKU: AT5997

Symantec Data Loss Prevention 14.5: Administration course is designed to provide you with the fundamental knowledge to configure and administer the Symantec Data Loss Prevention Enforce platform. SKU: SC1409

Symantec Endpoint Protection 14.x Differences course is designed for the network, IT security, and systems administration professionals in a Security Operations position who have experience with SEP 12 and need to understand the new features, how to upgrade to and manage SEP 14. SKU: SC1403

Symantec Endpoint Protection 14.x Manage and Administer course is designed for the network, IT security, and systems administration professional in a Security Operations position tasked with the day-to-day operation of the SEPM management console. SKU: SC1404

Symantec Endpoint Protection 14.x Configure and Protect course is designed for the network, IT security, and systems administration professionals in a Security Operations position who are tasked with configuring optimum security settings for endpoints protected by Symantec Endpoint Protection 14. SKU: SC1412

Symantec Endpoint Protection 14.x Plan and Implement course is designed for the network, IT security, and systems administration professional in a Security Operations position tasked with planning and implementing a Symantec Endpoint Protection environment. SKU: 00031681

Symantec Ghost Solution Suite 3.0: Administration course is designed for the professional tasked with installing, configuring, and managing a Deployment Solution system. SKU: SC1420

Symantec Control Compliance Suite 11.0: Administration (3-day) course is designed for professionals who are tasked with ensuring the security of their computing enterprise and compliance with both external and internal mandates. SKU: SC1425

Symantec Control Compliance Suite 11.0: Module Course Options course is designed to enable IT professionals on the additional modules outside the standards manager module which is covered in the CCS 11 Administration Course. SKU: SC1419

Available Training Courses

Veritas

Veritas Data Insight 5.2: Administration course is designed for the storage administration, IT security, and systems administration professional tasked with architecting, implementing, administering and using Symantec Data Insight. This class covers how to design, install, configure, administer and maintain Symantec Data Insight. SKU: DP0114

Veritas NetBackup 8.0: Administration course provides the IT professional with the general principles, configuration, and management of NetBackup, including how to: best utilize the NetBackup tools and interfaces, effectively monitor backup operations, and ensure data recovery objectives are met. SKU: DP0116

Veritas NetBackup 8.0: Advanced Administration course provides advanced NetBackup topics, including NetBackup performance, disaster recovery, application backups on physical and virtual machines, virtual machine accelerator backups, and security. SKU: DP0115

Veritas NetBackup 8.0: Maintenance and Troubleshooting course provides the IT professional with instruction on troubleshooting NetBackup 7.7 software. This course covers general error detection tools and troubleshooting methodologies. Students practice solving problems related to the NetBackup database, devices, media, disk, deduplication, networking, backups, and restores. In addition, students study the functions of key NetBackup processes and how to enable, view, and manage the associated logs.   SKU: DP0113

Veritas Backup Exec 16: Administration course is designed for the data protection professional tasked with architecting, implementing, backing up, and restoring critical data. SKU: DP0117

Veritas NetBackup 2.7.x Appliances: Configuration and Management course provides IT professionals with the skills necessary to configure and manage Symantec NetBackup appliances.   SKU: DP0120

Veritas Enterprise Vault 12.x: Implementation and Deployment course is designed for technical support, sales engineers, partners, and customers tasked with providing implementing and deploying the Enterprise Vault 12.x environment. SKU: DP0119

Veritas Enterprise Vault 12.x: Administration 1 course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within a Microsoft Exchange environment. SKU: DP0127

Veritas Enterprise Vault 12.x: Administration ll course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault. SKU: DP0124

Veritas Enterprise Vault 12.x: Administration IIA – Administering File System Archiving course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault. SKU: DP0123

Veritas Enterprise Vault 12.x: Administration IIB – Administering File System Archiving course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault. SKU: DP0122

Veritas Enterprise Vault: DIFFERENCES 11 to 12 course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within an Exchange environment familiar with Enterprise Vault 11. SKU: DP0131

Available Training Courses

Veritas (cont.)

Legal Discovery Using Veritas Enterprise Vault 12 Discovery Accelerator course is designed for those who use Discovery Accelerator to search, review, and prepare archived items in support of information requests. SKU: DP0126

Veritas InfoScale 7.2 FUNDAMENTALS for UNIX/Linux: Administration course is designed for the IT professional who wants an overview of the Veritas InfoScale Storage and Veritas InfoScale Availability products. SKU: HA0398

Veritas InfoScale AVAILABILITY 7.2 for UNIX/Linux: Administration course is designed for the IT professional tasked with installing, configuring, and maintaining Veritas Cluster Server (VCS) clusters. SKU: HA0399

Veritas InfoScale STORAGE 7.2 for UNIX/Linux: Administration course is designed for the IT professional tasked with installing, configuring, and maintaining the Veritas InfoScale Storage environments, including Volume Manager (VxVM), File System (VxFS), and Cluster File System (CFS). SKU: HA0401

Veritas eDiscovery Platform 8.2: For Administrators training course is designed for legal professionals that perform Electronic Discovery on Electronically Stored Information.   SKU: HA0404

Veritas eDiscovery Platform 8.2: For Users course is designed for legal professionals that perform Electronic Discovery on Electronically Stored Information. SKU: HA0405

Security Awareness and Compliance Training

The Security Awareness Program provides a programmatic approach that includes comprehensive web-based training and communication tools to help companies meet regulatory requirements specific to employee security awareness training. This can help reduce vulnerabilities by creating an informed corporate culture, to influence employees to protect an organization's critical information assets from exploitation, cyber-attacks, unauthorized access, and fraud. The program is designed not only to increase security knowledge and understanding, but also to influence appropriate employee behavior at all levels.
