NetX Information Systems
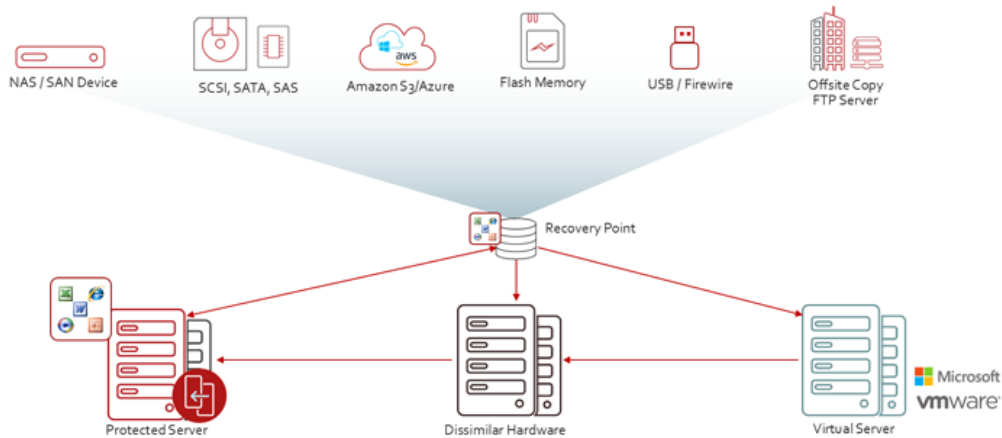

System Recovery

Image-based backup and disaster recovery for servers, desktops and laptops.

Restore Windows and Linux systems in minutes.

Ensuring rapid, reliable disaster recovery across your entire infrastructure can be complicated and costly. With Veritas System Recovery, you can minimize downtime and avoid the impact of disaster by easily recovering in minutes, whether you're restoring a single file or email to an entire machine-physical or virtual.

- Reduce complexity with a single solution that protects servers, laptops and virtual machines
- Protect data and systems quickly, efficiently and frequently with image-based backup
- Minimize the disruption of system failure with fast, flexible, reliable recovery
