Symantec Endpoint Detection and Response 4.5
Planning and Implementation

Description

The Symantec Endpoint Detection and Response 4.5 Planning and Implementation course is designed for network, IT security, and systems administration professionals who are tasked with planning, implementing, and configuring Symantec Endpoint Detection and Response. This course covers how to architect, size, and configure Symantec Endpoint Detection and Response On-Prem. Students should have a basic understanding of Symantec Endpoint Protection.

Delivery Method

Instructor-led

Duration

1 day

Objectives

By the completion of this course, you will be able to:
- Plan a Symantec Endpoint Detection and Response deployment
- Architect and size a Symantec Endpoint Detection and Response deployment
- Implement Symantec Endpoint Detection and Response On-Prem

Who Should Attend?

The Endpoint Detection and Response 4.5 Planning and Implementation course is intended for students who wish to plan, implement, and configure Symantec Endpoint Detection and Response.

Prerequisites

This course assumes that students have a basic understanding of computer terminology, including TCP/IP networking terms, Internet terms, and a basic understanding of Symantec Endpoint Protection.

Hands-On

This course includes practical hands-on exercises that enable you to test your new skills and begin to use those skills in a working environment.

Outline

Module 1: Symantec Endpoint Detection and Response Overview
- Introduction to Symantec Endpoint Detection and Response
- Shared Technologies
- Product Add-Ons
- Product Integrations

Module 2: Symantec Endpoint Detection and Response Architecture and Sizing
- Symantec Endpoint Detection and Response Architecture
- Symantec Endpoint Detection and Response Sizing

Module 3: Symantec Endpoint Detection and Response On-Prem Implementation
- System Requirements
- Bootstrapping
- Initial Configuration
- Symantec Endpoint Detection and Response On-Prem Console Overview
- Managing Certificates
- User Accounts and Roles
- Symantec Endpoint Protection Integration
