# WHAT DO WE PROTECT

Consolidating security into an ‘all-in-one’ platform with flexible purchasing options, including standard or monthly price plans

## Infinity Spark includes:

- **The Quantum Spark** family of NGFWs feature best-in-class threat protection, which is easy to deploy, manage and maintain. Integrates communication and security into an “all in one” security gateway with “out-of-the-box security” using industry-leading threat prevention with a 99.7% malware block rate.
- **Harmony Email & Collaboration** offers complete protection for SMBs cloud email and collaboration applications. The advanced solution combines Anti-Phishing, including URL inspection and file sandboxing and sanitization (CDR), for incoming and internal Office 365 and Google Suite emails
- **Harmony Endpoint** delivers advanced threat protection for known, unknown and zero-day malwares, Sandbox Emulation and Extraction, enhanced by automated endpoint forensics analysis, access control and Web Protection features
- **Harmony Mobile** offers comprehensive, enterprise-grade mobile security that protects iOS and Android devices, apps, and the networks they depend on from advanced mobile threats. Protects against OS vulnerabilities, MiTM attacks and malicious apps
