NETX INFORMATION SYSTEMS, INC

DELIVERED BY ACCREDITED ENGINEERS

NetX delivers both online and onsite instructor-led Symantec and Veritas training courses. Our **high-quality** information security and information management training courses are designed for system administrators, managers, operators, developers, and end users who need to get the job done. Our training classes consist of in-depth presentation and hands-on experience followed by lab access and direct assistance from our **Master Accredited Engineers**.

Attend from your home or office learning remotely, or have a private class run at your location or sites. All training classes are **Guaranteed to Run!**

NetX training classes are broadcast remotely, allowing our students to attend from any location. *To ensure a positive experience we only allow students to attend remotely and do not mix on-site with remote presentation.*

Smaller classes and 24/5 access are more effective: Each training class has a maximum size of 10 students, ensuring that every participant gets the most out of the presentation and can interface more comfortably with our engineer. 24/5 access to your dedicated training environment allows each student to practice labs as their schedule permits.

Advantages of Training Courses provided by NetX

-  Courses are guaranteed to run because NetX never cancels.
-  Instructors strive to make NetX #1 in customer satisfaction.
-  Instructors are experts with deep, real-world product knowledge.
-  Courses are broadcast online, so you can attend from any location.
-  Virtual training courses conveniently saves time and travel costs.
-  Instructors keep your IT team current and confident.
-  Students gain real-world skills and experience in a hands-on setting.
-  Dedicated labs are available 24 hours a day, 5 days a week.
-  Training Courses have a maximum size of 10 students.
-  Live, instructor-led courses can be held onsite at your location.

Security Awareness Training

With world-class, user-friendly new-school Security Awareness Training, **KnowBe4** gives you self-service enrollment, and both pre- and post-training phishing security tests that show you the percentage of end-users that are Phish-prone. KnowBe4's highly effective, frequent, random Phishing Security Tests provide several remedial options in case an employee falls for a simulated phishing attack.

Old school Security Awareness Training doesn't hack it anymore. Today, your employees are frequently exposed to sophisticated phishing and ransomware attacks.

- **Baseline Testing** - Baseline testing to assess the Phish-prone percentage of your users through a free simulated phishing attack.
- **Train Your Users** - The world's largest library of security awareness training content; including interactive modules, videos, games, posters and newsletters. Automated training campaigns with scheduled reminder emails
- **Phish Your Users** - Best-in-class, fully automated simulated phishing attacks, thousands of templates with unlimited usage, and community phishing templates.
- **See The Results** - Enterprise-strength reporting, showing stats and graphs for both security awareness training and phishing, ready for management. Show the great ROI!

Compliance Plus Training

Getting to Know the GDPR Mobile First Module

This mobile-first training module teaches employees the basics about the law, how the GDPR treats personal data, ways to process the data ethically, and how to honor people's rights.

HIPAA Compliance

In this training module, employees will learn how the Health Insurance Portability and Accountability Act (HIPAA) sets standards and responsibilities for protecting customers' Personal Health Information (PHI). This module discusses what constitutes PHI and potential consequences if that information is exploited.

Intro to the PCI DSS Mobile First Module

This mobile-first training module teaches employees the importance of payment card data, about the Payment Card Industry Data Security Standard (PCI DSS), our PCI DSS requirements, and how to protect cardholder data.

PCI

In this series, employees will learn about the importance of protecting cardholder data. This video shares PCI best practices for handling customer information and how to be aware of red flags.

FERPA and HIPAA

This series is designed to familiarize faculty and staff in schools with the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA).

FMLA - Employment Law

Our employment law training covers the federal and state laws that govern the workplace, including topics like discrimination, harassment, wage and hour laws, FMLA, and reasonable accommodations under the ADA.
